## BAPTISED HIS WIFE THREE TIMES

SO MENEFEE ELMORE WAS SENT  
TO ASYLUM—NEWS FROM  
CIRCUIT COURT.

The criminal term of circuit court was very busy this week, but ended on Wednesday and the civil session began. Arrangements are being made by the attorneys to hold a memorial service for the late Judge M. C. Sankey and his son the late George H. Sankey some afternoon before the end of the term.

Small Bills, of the Ottenheim section, who cut Jim Rogers at a picnic there on the 4th of July, was tried yesterday by a jury. It was brought out that Bills was more or less intoxicated, having been drinking considerable beer during the festivities.

Menefee Elmore and wife of the Preachersville section, were sent to the Lexington asylum, being adjudged insane of mind on religion. It was brought out in their trials that Mr. Elmore had baptized his wife several times, and disturbed religious services by his shouting, etc.

H. D. Carter, chief of Police of Stanford, was fined \$10 and costs for striking County Attorney A. S. Purch in a difficulty in the latter's office in August. The altercation between the two came up over the deposition of the Tom Beck and Hubbard case, in which Carter said a raw deal had been given these defendants, who were charged with shooting traps. Carter is said to have resented such implication upon his official integrity with the term "——-han," and the blow followed. The case attracted much interest and was hard fought by counsel for the commonwealth and the defendant. No hard feeling is said to obtain between the two men as a result of the affair, however.

In the case of John Haugh against his father, Doc Haugh—both of the West End—the jury disagreed. It is said, standing six to six. The suit was for the possession of nine horses, which each claimed as his property.

A jury gave Fred and Mittie Carson of the West End, \$400 damages each against the Cincinnati Southern railroad company. They were put off a train at Science Hill some six years ago, because of the failure of a ticket agent to give them a correct ticket.

## Kings Mountain.

The following is the report of the King's Mountain graded School from fifth grade up: The pupils that have not been absent during the month, are:

Well Waters, Maggie Flint, Pearl Hogue, Clarence Carey, Eliza Gooch, Estell Gooch, Maggie Smith, Girtle Trimble and Don Alford.

Those who have been neither absent nor tardy are:

Ernest Flint and Mabel Flint.

Those that have not been absent during the term, are: Russell Thompson, Maggie Flint, Grace Thompson, Lela Smith and Ottie Walls.

Those that have been neither absent nor tardy during the term are: Laura Johnson, Hulcey Acton and Esther Murphy.

The Literary Society that was organized some four weeks ago by the school, is progressing nicely.

Miss Esther Murphy, Nettie and Laura Johnson made a visit to Waynesburg Saturday and stayed until Sunday.

Mr. Dunaway, the depot agent is moving into his newly made house. Mr. M. G. Murphy is out of town for a few days on business.

Mr. Cyrus Johnson, the father of Estell Howard, is getting along splendidly with his school at Highland.

## Good Turkey Money

MISS NORTH TURNS OVER BIG  
FLICK TO BUYER GOOCH

T. W. Gooch the turkey buyer, brought in a drove of 600 to Northcott here this week. He secured most of them in the West End and in Casey and paid around 14 cents a pound for them. Mr. Gooch got a large number from Miss Annie North, daughter of Hon. and Mrs. M. F. North, her check for the flock amounting to \$154.28.

These turkeys were dressed here and shipped by express to the eastern markets.

## ADAM PENCE CATCHES LOAD OF SHOT IN LEG

### FIRST CASUALTY OF HUNTING SEASON REPORTED HERE-- BIRDS ARE SCARCE.

The first casualty of the season from hunting in this section, occurred on Tuesday to Adam Pence, while hunting rabbits. Seventeen bird shots lodged in his thigh, several penetrating the knee and caused considerable pain, though not sufficient to cause the young man to desist from the sport until the day was over. Adam had gone on ahead of his brother, Tom and Alfred and was thought by them to be over a hill. Instead he was about 25 yards distant, and concealed by a fence. A rabbit jumped up and not seeing his brother, Alfred blazed away at him, but Adam caught most of the shot in place of the quarry. Mr. Pence was wearing two pairs of ordinary hose and his underwear which to some extent protected his limb.

Tom W. H. Banks is the lower of a very tall male, valued at about \$250 as the result of carelessness of hunters who were on his place this week. A gate was left open, and the animal got out of its field. It wandered to the railroad track and was killed by a train. A valuable colt also got out and was killed in the same way.

Snorrods report that birds are very scarce in this section, though there appeared to be enough rabbits to make up for them. The Pence brothers got a total of about 25 rabbits and 15 birds on their first day out.

Tom Newland got 14 rabbits and 4 birds. Alfred Farmer got 8 rabbits and other hunters have had about the same luck.

## FOX HUNTERS MEET AT CRAB ORCHARD

### NATIONAL ASSOCIATION HOLDING 17TH ANNUAL SESSION IN IDEAL SPOT

The National Fox Hunters Association is in session at Crab Orchard this week, beginning Friday, and for several days and nights the hills of old Lincoln will echo with the deep baying of the bounds and the single baying, so dear to the heart of every Kentuckian.

A number of notable personages, who delight in the chase, are on hand for the events, and some of the best bred dogs in the country will participate in the running of the yard. This is the 17th annual meeting of the Association.

Col. Jack Chinn, of Harrodsburg, who is, perhaps, the best known fox hunter in the world passed through Stanford en route to Harrodsburg with four horses and eleven hounds.

The gathering will be quite a swell social affair as well.

Mr. and Mrs. Owen Tyler will chaperone a party from Louisville; Gen. Roger D. Williams and Mrs. Williams, Misses Miriam and Kathleen Mulligan and Miss Fannie Reed will be among those from Lexington. Mr. and Mrs. Jack Greenleaf will bring a party of young people from Richmond; Mr. and Mrs. Samuel Woodbridge will head a group of young men and women from Versailles, and parties from Boston, New York, Washington, Philadelphia and other Eastern cities will also be in attendance.

## More Wedding Bells

### TWO YOUNG COUPLES MADE HAPPY BY DR. DICKEY

Miss Ora D. Poore, of Beaufort, Virginia, and Mr. William Broaddus, of this county, were married at the residence of Mr. Ed Ballard one mile from town on Wednesday evening at 8 o'clock. Rev. J. J. Dickey performed the ceremony.

The bride is a sister of Mrs. Ballard, and is one of Garrards' most attractive girls. Mr. Broaddus is one of Lincoln's best young men and their host of friends and loved ones were for them great happiness. They will make their home on Mr. Broaddus' farm on the Danville pike.

Miss Eddie Florence Terry, of Yosemite, Casey county, and Mr. Jesse Martin, of Turnersville, were quietly married at the residence of J. A. Manning on Whitley avenue, this city, Wednesday. Rev. Dickey officiated. The happy pair will begin housekeeping at once near Turnersville, and have warmest congratulations from a wide circle of friends.

## Turnersville

Several from this place attended the box supper at Mason's Gap last week.

Mr. John Carter is planning to build a new house.

The hunters are busy in this community.

There will be a box supper at the school house in a few weeks. Further arrangements will come out later.

"Hurray for Helm" he is ours.

We have a good joke on one of our farmers who dug his sweet potatoe and laid them out on a bench where he had salted meat and he says that they are so salty that he cannot eat them. This is the first time we ever heard of anyone preserving their potatoes in salt.

Mr. John Beck is preparing a house which his son will occupy. He is building a kitchen and porch to it.

Mr. Thomas Gooch passed through here Tuesday with a drove of turkeys bound for Stanford.

Mr. James Denny is visiting his homefolks in Casey.

Mr. S. P. Shoop of Waynesburg visited friends here last week.

Master John Walker Hubbie attended the birthday party given by Mike McCarty, of Stanford Saturday.

Mrs. Mary Gadberry, Fannie Russell and Mr. and Mrs. Jim Gadberry, of Hillsburg, visited Miss Mattie McWhorter this week.

Miss Jessie and Cardie Hubbie visited friends at Middleburg last week.

Misses Eva Moser and Isabelle Geynolda visited here Sunday.

On Sunday afternoon Nov. 20th, at 2:30 the Christian Endeavor Society will meet at the Christian church.

Mr. F. Schlitzler has purchased the shingle mill of Mr. Charles Trub.

## Hustonville.

Col. Geo. D. Weatherford returned home Monday from Danville with a severe case of rheumatism that will confine him to his bed for some time.

Mrs. Molle McCormack is visiting her parents and other friends in Derby Kansas.

The buildings to the lot known as the ark on the N. E. corner of College and Main streets has been sold by the owner Mr. D. S. Carpenter to Howard Gammon and J. A. Allen for \$1,000.

The Hustonville hunting and fishing club left Tuesday for a ten days

outing in the Green river valley.

J. G. Weatherford, Judge J. P. Goode, W. Q. Speed, Lloyd Weatherford A. J. Adams, Dr. G. S. Williams, Cleve Dunn, Harry and Howard Gammon.

The following invited guests accom-

panied them: Capt. C. P. Fletcher,

of Pittsburgh, Pa., Hon. T. Adams, Ken-

ton county's representative in the

legislature, and Messrs. Rowan, Cody

and Farmer of Cincinnati. If the

weather is favorable they will stay

about ten days.

The writer is indeed very sorry to

learn through the daily papers of the

unexpected death of Senator Clay of

Georgia. Through a friend of mine

that I was visiting recently in Georgia

and who lives in Marietta, Ga., Sena-

school. Come and enjoy the children

and encourage and help them in their

laudable undertaking.

## Middleburg.

The election is over and we are

glad of it. For the most part the re-

sult was as good as we could have

had. We would have been glad if

Hon. E. Bertram had wiped up the

earth with Caleb Powers, but what

he did for him was no little, and Mr.

Bertram has more to be proud of than

Caleb.

In selecting the juries for the pre-

sent term of the circuit court this ses-

## POLITICAL ANNOUNCEMENTS

## For Circuit Judge

The Interior Journal is authorized to announce Charles A. Hardin as a candidate for Circuit Judge of the Thirteenth Judicial district, at the election to be held November, 1911, subject to the action of the Democratic party.

Colliers, the "National" Weekly, is evidently a very warm friend of the New Nationalism of Col. Theodore Roosevelt, and utterly blinded to every evidence of progressiveness on the part of the democracy of the nation. Its current issue shows that it is very very sore over result of election generally. Colliers almost had some of us progressive Democrats hoodwinked into believing that it really stood for something higher and better in the national life than partisan adherence to party lines--Republican party line in its case--by the splendid fight it made before the election for the success of progressive principles. Since the election of the voters, however, and its idol, Theodore I., dethroned, it can see nothing of good in the sections where the real party of progression, Democracy, has triumphed, and yells that the corporations and money interests were behind the democratic candidates.

The politics of Collier's reminds us very much of our good friend Sam J. Roberts, editor of the Lexington Leader, and erstwhile Collector in the Seventh Internal Revenue district

Mr. Roberts' fight for purity of civic affairs in Lexington, his willingness to join with Democrats to oust "political cut-throats" as he called them, from control of elections, and swapping of the government of Fayette and Lexington among them, led many of us to consider that, perhaps, after all, his "hide" was not so "bound" to the cabin but that he could put the good of state and nation before the party device. But our illusions were sadly dissipated when, in the last congressional campaign he wantonly attacked one of the purest and best men who ever honestly sought the suffrages of the people and did his mud-slinging in the interest of a man thrice convinced of complicity in assassination, and never yet ac-

## "It Cured My Back"

"For twenty-nine years I have been at intervals a great sufferer from rheumatism. During that time, no telling how many gallons of the various kinds of liniments and oils I have used and with but little relief. Recently, I was confined to my bed helpless. I tried Sloan's Liniment which I sent for two large bottles, and I have up to this time used about half a 50 cent bottle with splendid success." — JAMES HYDE, Beebe, White County, Ark.

## Got Ease in Less Than Ten Minutes.

MR. JAMES E. ALEXANDER, of North Harpwell, Me., writes:—"I am a horseshoer and subject to many strains in my back and hips which has brought on rheumatism in the sciatic nerve. I had it so bad one night when sitting in my chair, that I had to jump on my feet to get relief. I at once applied your

to the affected part and in less than ten minutes it was perfectly easy. I think it is the best of all Liniments."

Sloan's Liniment does not need any rubbing. It's a powerful penetrant. Try it for Rheumatism, Sciatica, Sprains, Chest Pains, and Sore Throat. It gives almost instant relief.

guilted by a jury of his peers. We confess than we were grievously disappointed when Editor Roberts argued that Elza Bertram ought to be defeated for congress in the 11th district because his father had "played some part in the legislature proceedings at the time of the Goebel trouble. Nothing else could be found against him; no other law in his record or spot on his escutcheon save that he happened to be the son of his father, and his father had legally contested for a seat in the legislature against a republican. Consistency seems not to be a jewel in the diadem with which most of these political purists are crowning themselves these days.

The Interior Journal has the best family of correspondents in the state, but it wants a few more of them. If you do not see a news letter from your community in the paper, why not write one? Communicate with the office and stationery and stamps will be furnished. We believe that the people of the various communities in which the I. J. circulates had rather read of happenings in their immediate neighborhood than what goes on a hundred or a thousand miles away, and for that reason want to give the news from every community and desire a correspondent from every point. The I. J. is putting on new subscribers almost every day of its life and its large and growing circulation is being more and more appreciated by the advertisers. So much so, that plans are being made for the early installation of a larger press which will permit a larger paper every issue. Help the good work along.

Just because Ben Johnson made a fine race in the 4th district in the recent election, is no sign he is strong over the State. The rank and file of the democrats don't want Ben Johnson for their nominee for governor, and they are not going to have him. The people who are strongest for Johnson for the democratic nomination are the republican officeholders at Frankfort.

They are confident they can beat him if he were nominated but not a one suggests a thing about McCreevy.

Col J. M. Richardson of the Glasgow Times is for Bryan the presidential nomination in 1912. We are a great believer in Bryan, but the democrats must not throw all the fat they've won into the tire. Bryan can't win; let's name someone who can. Harmon and Wilson sounds good to us.

Missouri, Florida and Oregon all voted against state-wide prohibition on Nov. 8. We don't know about Missouri and Oregon, but if the man who led the fight in Florida for the drys is the same Collins, who was one of the leaders of the Anti-Saloon League in Kentucky in the state campaign of 1907 and by sending out telegrams on the day before the election betrayed the democratic party over to the republicans, we are not surprised at the result in the southern state; and we have reason to believe that it is the same man.

California will send one democrat to congress, instead of a solid republican delegation of eight, as was at first supposed. The official count of the first district shows that Judge G. F. Baker, democrat, has a plurality of 124 votes over W. F. Englebright, republican, incumbent. The latter's majority two years ago was over six thousand. Every little bit added to what you've got makes just a little bit more.

The steamer San Giorgia arrived in New York from Naples, Italy, with several suspected cases of cholera on board. Two deaths from the dread disease occurred on the voyage. The ship and passengers are being held for examination.

## WORK WEAKENS THE KIDNEYS.

Doan's Kidney Pills Have Done Great Service for People Who work in Stanford.

Most Stanford People work every day in some stained, unnatural position—bending constantly over a desk—riding on jolting wagons or carts—doing laborious粗work; lifting, reaching or pulling, and trying the back in a hundred other ways. All these strains tend to wear, weaken and injure the kidneys until they tell behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Stanford cures prove it.

John H. Wren, E. Main Street, Stanford, Ky., says: I know from experience that Doan's Kidney Pills are all that is claimed for them. Off and on for several years I had severe attacks of lame back. Often I did work that required stooping and at such times the backache became much worse. There was also a too frequent desire to void the kidney secretions both relieved me and have never failed to day and night. Doan's Kidney Pills benefit me since then when I have taken them."

For sale by all dealers. Price 5c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Mr. Otto Paul Milwaukee, Wis., says Foley's Honey and Tar is still more than the best. He writes us, "All those that bought it think it is still more than the best. Our baby had a bad cold and it cured him in one day. Please accept thanks."

## An Observer On Road Conditions In Lincoln

Every tax payer should study the deplorable condition our turnpikes and roads are in. It is commendable to fill up mud holes, but more praiseworthy, beneficial and economical to prevent mud holes and washouts. The county officials whose domain consists especially in looking after the pikes and roads, should have a nobler ambition, industry, more common sense and zeal in the future than in the past. A good lock and hinge are the life of the door, a good tire and felloe in the life of a wheel and wide deep ditches sufficient to hold and carry off all surface surplus water water are life of the pikes or roads. The bottom of the ditches should be lower than the base of the pikes and roads, sufficient to hold and remove water the rainiest seasons, prevent mud holes and washouts 60 to 80 per cent of the injury or wear and tear of the public highways are due to the washouts and low places. And mudholes in the road beds, the earth low in the middle and high on the sides and no ditches on the sides parallel with the roads and no short ditches transverse to the long ones to lead the water from the centre of the road bed to the long parallel ditches.

The road beds should be high in the middle and low on the sides to drain properly, viz: Cover from side to side the highest plane being the center of the road bed. \$15,000 or more is spent annually on the turnpikes and \$8,000 is spent on the dirt roads and yet, no good turnpikes and no good dirt roads, why spend so much in filling up mud holes and washouts? why not spend a good part of this large amount of money in wise and economical ditching, drainage, deeper, wider and larger ditches, wider and deeper culverts, wider and higher bridges and not have the pikes and roads overflowed, softened, disintegrated, mud holes and washouts made and hundreds and thousands of dollars worth of metal or macadam washed away every year? There is almost enough gravel and beaten rock on the high edges of the pikes and in the filled ditches to raise the middle of the road to the proper convex height and turn the water in the ditches, if properly replaced. On the hills there no avoid water sheds or dams with the apex up hill, the bar down the hill to turn the water into the proper channels, the ditches.

The plow scraper has a function in removing the high edges or sides and bringing the metal to the center of the road bed. The large turning plow with a good team and plowman running four to six furrows on each side of the pike or road then the loose dirt removed with teams and pond scrapers. Again where the pick and shovel can only be used and the dirt carted or hauled away as fertilizer to poor farm lands. Again there are ledges of rock that must be blasted away to give proper width and depth to the ditches for proper drainage and the rock blasted should be heated and placed in the center of the road bed. Before there were free turnpikes, Dr. Fowler had an ideal pike in the Shelby City and Stanford pike. Mr. John F. Cash had a model pike in the Stanford and Hustonville pike, and Mr. Jack Bosley had in the

**HORTICULTURE****INJURIOUS ELM-LEAF BEETLE**

Prompt Action Necessary If This Pest Is Eradicated Before Trees Are Damaged.

No one who has elm trees infested with beetles should trust to natural checks to eliminate them. The trees should be thoroughly sprayed as soon in the season as the first sign of beetle feeding is seen on the leaves, and arsenic of lead at the rate of 5 pounds in 100 gallons of water should be applied.

It is important that this spraying should be prompt and very thorough, the object being to kill off the beetles before they lay their eggs. For this reason the strong mixture is advised, but its action may be prompt and the injury to the leaves minimized.

All beetles must feed before they lay eggs, and there is usually a period of about two weeks between the time when the first beetles are seen on the leaves and the time when the first egg mass is noticed. Earlier spraying is not advised because the foliage increases in size so rapidly at this period that leaves sprayed when half-grown may be very imperfectly cov-

Elm-Leaf Beetle.

ered a week later when the beetles feed, and the application will not be effective.

Spraying against the adult beetle rather than its larva is further urged because the beetle eats the entire leaf tissue and therefore gets the poison whether it is on the upper or under surface. The larva eats only the cells of the outer side and escapes to the middle only. In consequence any leaf not covered on the under side may sustain a dozen larvae unharmed, even though the upper surface may be uniformly and effectively coated.

When we have large trees to deal with the problem of hitting the underside of every leaf becomes an almost impossible one to solve, while merely covering every leaf on one side or the other is a comparatively simple matter. Dr. L. O. Howard obtained from Montpellier a shipment of a minute parasitic wasp, *Tetrastichus xanthomelasae*, which seems to be very effective in keeping down this shade-tree pest in the vicinity of Paris and other portions of France. The habits of this little wasp attack and develop in the eggs of the beetle and Dr. Howard believed that, could the insect be acclimated in the United States it

would probably do equally good work here.

**Parasite on Egg of Elm-Leaf Beetle.** (a) egg patches on leaves; (b) larva feeding; (c) adult; (d) egg mass; (e) larva; (f) pupa; (g) beetle; (h) h. l. enlarged female.

The parasites have been distributed and the tests are progressing. It can not be determined in a short time, what the effect of these parasites will be, but good results are looked for.

**BROWNING THE CATALPA TREE**

Will Be Big Enough for Telephone Poles or Fence Posts in About Fifteen Years.

Going in for a catalpa grove next spring? These trees will grow into telephone poles and fence posts in about fifteen years. An acre of ground will produce from 3,000 to 4,000 fence posts and such posts are now worth about 18 cents each. In fifteen years they will probably bring twice as much, as timber is becoming more scarce every year. One year old trees are the best to plant. Be sure they are all healthy and come not too far from home. Buy none but the very known as "Speciosa." You will have to pay about \$10 per 1,000 for good trees.

The ground should be plowed and put in good condition as for corn. The rows ought to be about eight feet apart and perfectly straight. Use a corn marker to set them just right. After they get a good start cut them back nearly to the ground. Don't be afraid to cut, as they will be the stronger for the pruning. On good soil where trees are not too much crowded they will grow from five to seven feet the first year. Some of the railroads are going into catalpa growing to get a supply of good trees, but there is not much danger of overdoing the business.

**The Norleigh Diamond Watertite Hunting Coat**

A coat with style and class and the most practical hunting coat ever designed. Is absolutely water-tight, yet light and flexible. A coat made to fit a hunter and very liberal in cut.

Is bound with leather, has leather-covered shoulders; five outside cut-in pockets, one outside patch pocket and has full game pockets throughout the entire coat. The corduroy collar fits perfectly and when turned up fastens with storm strap. The button holes are all worked with silk, silk-stitched stays at the strain-ing points.

Has ventilated under arm gussets and adjustable cuffs. The water-proofing is by a new process that is really water-tight.

If you want a coat that has class, style, and yet room for any reasonable "bag," investigate this coat.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known in the medical fraternity. This cure is a combination of medicinal properties, external treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby removing the production of the mucus, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Thousand Dollars Reward that it fails to cure. Send for list of testimonials.

"My Wife's Family," a rip-roaring musical comedy with fun from beginning to end, pleased a large crowd on Thursday night at the Stanford Opera House. The production is the best seen here in a long time, and it was gratifying to the management of the opera house that the people came out in goodly numbers to enjoy it. Miss Bigden, the star, was a dream, and her beauty, magnificence of costumes and fine work delighted everyone. The Thebus brothers in their song and dance stunt, and in all their work were very fine. Manager Wallace Cutler has a winning company and puts on a show that is of a much higher class than cities the size of Stanford generally have the pleasure of seeing.

Manager Homer Wray, of the El Paso Tennessee Telephone Company's local plant, has had a crew of linemen here for several days putting up new wires for the increasing business of the company, and putting the old ones in shape for the winter. THE PLUMBING THANKSGIVING

Should be a celebration of work well done and many people pleased. That is how we intend to celebrate. But we shall not be completely happy until we know that your plumbing is all right. Let us take a look at it and if anything is needed let us do the work so it will be off your mind and ours. Then we can both be truly thankful.
